

# Active Ventures

## Project Reach

Location: Mumbai, India  
Combat infant mortality rates in India by distributing otherwise wasted vaccines stockpiled in cities to rural communities.

## Global Village Fruits

Location: Bharananhanam, India  
Train jackfruit farmers in villages on how to prepare, ship and sell 3 different varieties of products to American and Indian markets.

## LENSational

Location: Hong Kong, China  
Provide cameras and training to female domestic workers giving them a voice, artistic outlet and income through revenue sharing.

## Global Youth Mentorship

Location: Quzhou, China  
Pair elementary school students with local college students to teach summer-school curricula in arts and technology.

## Babymetrix

Location: Malawi  
Monitor the growth of children in developing countries to generate earlier preventative measures, treatments and healthier growth.

## The Mobile Science Lab

Location: Thane, India  
Teach underprivileged children about basic scientific principles while simultaneously raising awareness about sustainability.

## Unspoken Smiles

Location: Port-au-Prince, Haiti  
Address tooth decay by bringing dental supplies, volunteer dentists and prevention education to primary schools.

## Making the Most of Water

Location: Nyanza Province, Kenya  
Provide micro-drip irrigation to the local water authority. Initiative expansion includes women's rights and voter registration.

## Green Garbage

Location: Caracas, Venezuela  
Promote recycling awareness to schools and working to build Venezuela's first garbage separation and recycling plant.
